

LEE S. McDONALD, INC. est. 1976
THE SOURCE FOR THE PAPER ARTS

KAOLIN CLAY

hydrous silicate of aluminum

China clay

A very fine white powder. Aids in reducing shrinkage during drying. Will also leave a smoother surface to the paper. Works very well as an additive for paper casting.

Ratio: 16 tsp. per pound dry fiber

Mix well with water and add to the pulp

make paper, make art™
